Fees and Information Regarding Classes with an Activity Fee:

You will be charged an Activity Fee for the total number of scheduled classes. The number of total blocks per Activity is indicated below and will be applied as a one time charge (e.g. Drumming – 45 blocks). Each class, you will also be charged the normal number of blocks according to departure/sign out time. *Normal Financial Assistance Policies apply!**

Classes will still be held on minimum days (intake and conference days!).

Instrument Classes Information:

Returning families will note an increase in instrument class fees. This increase more accurately reflects the costs of operating these classes. Remember that normal Financial Assistance applies! Instrument rental information will be available at initial classes. Continuing students should bring their instruments to the first class. No rental is necessary for drumming or piano!

A one semester commitment is required for most instruments. Students are expected to practice regularly between lessons. If a student drops a class after the second lesson, or misses lessons, he or she will be charged for those lessons. We hope this will help minimize our administrative costs and encourage students to follow through with their lessons.

Private lessons (where a student pays the teacher directly for music lessons and is not charged for daycare) are not available on campus. For insurance purposes, **children on campus after school must be enrolled in the daycare program**. Some students may receive one-on-one instruction in their instrument lesson if there are no other students who can play at the same skill level.
